RESCUE BY A CHINESE.

A Harbin' despatch to the Asihi states that an Englishman in the service of Mesers Wassard (c) at Harbin, has been attacked by Hunghutze at a point about four miles from Koluan. He was robbed of 100 roubles in cash, together with all his personal belongings. He was about to be murdered when a Chinese drayman came to his assistance and rescued him. The Rusian corn merchants in Harbin have addressed an application to the Chinese Eastern Railway Company, asking that guards should be posted on the road between Koluan and Harbin for the profection of travellers.

Apropos of freak games of golf, the Edinburgh Evening Disputch states that in 1798 Mr Scales, of Lieith, and Mr Smellie, an .Edinburgh printer, undertook to drive golf balls from the south-east corner of Parliament square over the weathercock of St. Giles' Cathedral. Six balls each were allowed, and these all went higher than the dome, and were after afterwards found in the Advocates' Close on the north side of the High Street.

A man was arrested at Moji a few days ago on a charge of kidnapping eight girls, Building. whom he intended to take to Hongkong and Singapore. The girls have been restored to their homes. As the Nagasuki Press remarks, a little co-operation between the police of Japan and the British colonial ports would make this dreadful trade unprofitable and do something to clear this country of the stigma which has so long attached to it as a depot for the supply of immoral women.

EXPERIENCE IS THE BEST TEACHER.

GREAT deal has been written and A said in the newspapers regarding Chamberlain's Cough Remedy," says Mr Cronje of Cairna Moor, Natal, Africa. great value of this remedy: There is an old proverb that Experience is the best teacher. My family and I were attacked by sovere colde and conghed so that for several adults we could not onjoy sleep. I decided to try Ch, inberlain's Cough Remedy and when we together had emptied the pottle we were all cured. I recommend His remedy as a true and family physician.

Strangulation, writes the Kashing correspondent to the N. C. Daily News, is again coming into favour in place of shooting as a method of execution. The Chinese consider strangulation a lighter punishment than shooting, as the body is not mutilated by it. During the Revolution bad marksmanship was frequently the cause of terrible suffering for the victims, so that there is something to be said for the change.

A wife for the prize, with a dowry of 85,000 and the balance to go to the Wenchow famine district, is the scheme of a promising lottery which has been nipped in the Sud by the Shanghai Chinese authories. The scheme aross out of a visit recently paid by a Miss La Wenchin to Wenchow, when the distress of the district implanted in her the idea of offering herself to raffied for in the manner above mentioned. There were to be 30,000 tickets at 81 each. Unluckily the promoters are said to have quoted the names of certain prominent Chinese as patrous without their consent, and a very sporting matrimonial philanthropic offer has had to be withdrawn

A SINGAPORE BANK SENSATION.

Alleged Embezzlement.

'A sensation was created in Singapore during the week end when it became Tytum Byewash 28 ft. | 21 ft. 10 in. below overflow | known that Tan Hood Guan, one of the Tytam Intermediate 8ft | 21 ft 10 in. below overdow | best known Chinese in the Settleme it, had THE CHINESE ENGINEERING AND Poktulum, 18 it. 8 in. | 16 ft. 1 in. below overflow abscouded and that a warrant had been Wong Nei Chung. 84 ft.] 35 ft. 2 in. below overflow issued charging him with embezzling considerable sums of money from his employers, the Chartered Bank of India; 1.94 Australia and China, and with forgery. si.54 Wild rumours became current as to the extent of his alleged malpractices and the amounts popularly hazarded were anything up to \$200,000.

The defalcations were discovered on the Company in Tientsin to be forwarded Saturday, and were lighted upon, we un-1913. derstand, quite by chance. An officer of old Company can be exchanged at the the bank had occasion to look through some books in the ordinary course of 20 attached must be left at the Company's business when he came to some items that appeared to require elucidation. Tan Hood Guan, who was one of the senior clerks engaged in the European bills department, was called in to throw light on the point. There was no suspicion up till that moment that he was anything but a faithful servant of the corporation. He said he would have to refer to other books in order to arrive at an explanation of the point under investigation, and went off apparently for that purpose. He did not return and when enquiries were made for him it was found that he had gone out; Even then the management had no reason to suspect anything wrong, but the realisation soon came. - A further exam ination of the books ravealed certain discrepancies which could only be accounted for by dishonesty, and these were found to recur at intervals for several years back The investigation was prosecuted back to 1908 and the total of the defaications made apparent is stated to be between \$25,000

THE MODER OPERANDI.

That aggregate, as is indicated, was made up of many comparatively small sums, none sufficiently large to have made embezzlement. It wou'd appear that Hood Guan had obtained the money by forging the names of European officers on cash vouchers, which he presented for paymont at the cash department. He was always careful not to make his demands too large and the individual sums which he drew this fashion were usually in the neighbourhood of a thousand dollars.

The warrant was only taken out after the missing clerk had made good his escape. It charges him, as stated, with embezzlement and Horgery, and the police have also proclaimed him under Section 51 of the Penal Code which gives authority to seize the missing man's property against the sum involved in the charges. This property should be of quite considerable dimensions, for Tan Hood Guan was without doubt in affluent circumstances. He lived for beyond the means that the salary of a bank clerk would warrant, was known as an open-handed friend among the Chinese | Colony for over ten years. community, owned motor-cars and carriages, and lived in a large compound house at 74 1 Prinsep Street. On the turf he has been very well known for the past eight years, all up and down the Peniusula, as 16 Mr Hond," and one of the horses which he was lately in possession of was Tom Lees. He had been in the employ of the Chartered Bank for about 18 years, practically since he left school. He was deeply involved in rubber and tin shars speculatimis, and is is commonly stated among his friends that his, profits un the rubber boom of 1910 amounted to seventy or

eighty thousand dollars. Among his other netivities lie found time to do a good deal of voluntoering and he was one of the local rootingent which went to England for the Coronation of the law King Haverd. ... (Streite Times)

It is really remarkable

that no one seems to have been struck by the fact that, in spite of the regular daily cleansing with tooth-soaps and pastes, the teeth and particularly the back teeth, frequently become decayed and hollow. Is not that a convincing proof that toothsoaps and tooth-pastes are entirely inadequate for the purpose? Our

teeth are not so obliging as to decay only in places where we can conveniently reach them with brusha On the contrary, it

is just in those localities which are difficult of access, such as the backs of the molar teeth, the interstices between the teeth, hollows and cracks, that the decay and destruction of the teeth appear most frequently, and are most likely to occur consequence, if anyone wishes to preserve his teeth intact—that is to say, to keep them healthy, this can be effected in one way only-by daily cleansing and rinsing the mouth and teeth with the antiseptic dentifrice Odol. During the process of rinsing, this preparation penetrates everywhere, reaching alike the hollows in the teeth, the interstices between them, and the backs of the molars. Odol destroys the microbes and arrests all bacterial and fermentation processes which attack the teeth.

THE PEKING SYNDICATE, LIMITED.

The annual general meeting, says the London and China Express," of the members of the above company was held at the Connon-street Hotel, London, E.C., on 10th ult., Mr. René de Cérenville presiding. The Secretary having read the notice convening the meeting,

and the auditors' report, The Chairman said :- You will, I know, roudily join in the regret of myself and my colleagues on the board that our esteemed chairman, Sir Richard Awdry, is unable through illness to take the chair at today's meeting. Sir Richard takes the keenest interest in the problems which we have had to face in the past, and shall still have to face in the future. ind we all hope we shall soon see him fully restored to health and ready again to help us with his wide knowledge and experience of human affairs. The report and statement of accounts, which have been in your hands for some days, cover the twelve months ending June 30, 1912, and, with your permission, we will, as usual, take them as read. The accounts are made up in the same form as on previous recusions, and they do not seem to me to need recapitulation here. The board has endeavoured, in their report. to deal as fully as possible with the past year's activities and with the future prospects of the company, but may I touch upon a few of the subjects which occupy the constant, I might indeed say the

daily, attention of your directors. And first I wish to refer to what has happened recently at No. 4 pit. We have duly published the information concerning this accident, which frequently takes place in coal mining exploitations. No 4 shaft had been sunk at a moderat expense." It gave us an important par of our total extraction, but the coal of that region being of an inferior quality, this areident has not reduced our profits as much as it has diminished our production. It is, I think, under these circonstances, not impatisfactory to learn that, apart from the temporarily abandoned pit, 32,000 tons of coal were obtained in October and 34,700 tons in November, and that the output for the our, as estimated by our Engineering Thief on the spot, may still be anticibuted to reach 450,000 tons to 500,000

THE QUESTION OF DIVIDEND. Your directors do not propose that any, dividend should be paid. The reason that actuated the directors in dealing with the 1910-11 period still applies to the year 1911-12. In my opinion a company who has kept a realisable enpital of one million pounds is fully, entitled to ecommend to its shareholders to follow t conservative policy and to keep its resources untouched for a favourable nture. Therefore, your directors content themselves in recommending that the credit balance of last year and the account appearing in this year's profit and loss account, making together £440,443 4s. 9d., should be carried forward to the next account. The Peking Syndicate may, in my opinion, congratulate itself that in spite of the revolution in China its capital and mines have remained untouched, and that the coal butput has been practically the same as in the preceding year,

A TRIBUTE TO YUAN SHIR-RAL You will have notized from the report hat the Company has not suffered "by the recent disturbances in China, and I should like to take this opportunity of acknowledging that this freedom from injury to life or to property is in the main attributable to the friendly and energetic action taken by His Excellency Yuan Shih-kai, who at the request of 27 His Majesty Minister at Peking took the necessary steps to safeguard the company's interests at the mines. Mr. Oury and Combe de Seguier have begged some months ugo to be relieved of their duties as managing directors, which interfered greatly with their other work. I am sure you will accord them a hearty vote of thanks for their services. The board has been fortunate in securing the services of M. Andro Berthelot, whose name and reputation as a successful administrator must be well known to many of you. Mr. Berthelot commenced his duties as manuging director on December 1. It will interest you to know that in October last we supplied a British flotille of tor-

pedo-boats with coal at Tientsin. THESE SOURCES OF REVENUE! Your directors do not intend to rely upon coal mining alone as a source of revenue. As the directors' report has already explained, active measures are 1,973,289 now being taken to acquire other profit. KINGSCLERE see no reason why they should not effectively employ the company's resources in many other directions within the sphere of the Momorandum of Associntion." During the year under review the expenses of the administration reachrel a higher figure, owing to exceptional circumstances. Your directors thought. it advisable to send out a coal mining specialist to China-Mr. Benqué-whose preport on his return gives a favourable impression of the value of the properties. To this report the directors will give the most eareful attention without delay. Before I sit down I should like to tell you that we duly received yesterday-lie appointed day-a cheque for £20,000 from the Government of the Republic of China, the interest in respect of No. 15 Coupon, due January 1, 1918, on the Chinese Government Gold 5 per cent. Honan Railway Bonds. I would ospecially at this juncture desire to mention that the Chinese Government have never fulled to fulfil-its obligations in regard to the payment of the interest on this railway loan of 2800,000, the whole of which bonds is held by its. I propose "That

A SHAREHOLDER'S CRITICISMS. Mr. Perks.: Gentlemen.-T should like to speak on this extremely unsatisfactory report. Eighteen months ago a report was sent round to us in which the Chairman said that they were in ressonable sight of paying a dividend. Apparently the gentleman was very far-sighted, bevause in 18 months he had lost sight of it altogether. (Laughter.) Although, apparently, he was very fer-sighted then, the board now adopt a very near-sighted The extremely unsatisfactory state of the company is shown by the slump in the shares. Some time ago, on these promises that a dividend was probably going to be paid, or words, to that effect, these shares went up to something like 12. What are they worth now? 17s. They slumped immediately this report was out. How are we treated, gentlemen? We know nothing. The last report was issued eighteen months ago. How do we know what is going on ? AUTHORISED CAPITAL ... Yen 48,000,000.00 They tell us nothing. We are kept absolutely in the dark, and it is a disgrace-

ful way of dealing with us. They may be right in doing so-they may be right legally-but I say that we ought to have information from time to time. Other companies do it. I have shares in company-a little mining company-and I have a posteard once a month from them showing the result of the working. Why should we not have something of the same sort? Why should we be kept in the dark when other directors treat their sharcholders in a more business-like manner? I want to move this resolution. I have another one to move in a minute or two, after the directors' report is dealt with. I propose, "That the directors shall report at least once every three months to the shareholders giving details of the business done and all other Deposits received for fixed periods at available information." I am a stranger to you here, but that seems the thing we

ought to have. Our money is invested in this concern, and we ought to know what is going on and what is being done. The directors tell us nothing, but, of course, information leaks out. There are a large number of directors in this big concern, and other men get special information, I believe there was an article in "Truth" £1,500,000 -I did not read it-upon the deplorable state of this company. They must have got information from somewhere, because shortly after we got this report down went the shares. I say that we are being treated in a disgraceful manner, and I

hope that some shareholder will second my pusposal. Mr. Rigby: I will second it. The Chairman, replying, said he could not give Mr. Perks a definite answer Kota Bahru, Relautan. then. He should be quite willing to Kusis Lumpur, F.M.S. consult with his colleagues and endeavour to do their best to give him satisfaction. Mr. Perks: My other resolution follows on the same lines. We are told that we MESSES JARDINE, MATHESON & Co.,

are to get nothing, but apparently the directors are getting something, although what we do not know. I will propose, "That in consequence of the extremely LONDON JOINT STOCK BANK, LIMITED. unsatisfactory report for the 12 months Every description of Benting and Ex. the fees of the directors be reduced to change business transacted, and Stocks and Shares bought and sold on account of

Mr. Perks: I will give you, then, formai notice to that effect, and if the Secretary will send me the proper form Will sign it and send it in. The resolution was carried with one DANKING

The Chairman then moved, "That Mr. Charles Victor, Mr. Andre Berthelot, and the Right Hon, the Earl of Carrick, who vacate their seats on the board in secondance with the articles of association, be re-elected directors of the company." Mr. Porks: Will you kindly toll us what fees the directors get?

The Secretary: £400 s year each. Mr. Perks: How many are there? The Sceretary : Ten. " Mr. Perks: And the shareholders get nothing, and that, has been going on for

STATE OF THE PROPERTY OF THE PROPERT INTIMATIONS

Nervous Exhaustion, Neuralgia, Sleeplessness-

The fact that Mrs. Taylor did not give up her work, and did not go for a change, is clear proof Phosferine prevented the nervous breakdown which her doctor said was certain unless she gave up her duties. Mrs. Taylor is not the sort who gives up easily, although she was worn to a standstill with neurasthenia and sleeplessness, and realising that neither change nor rest was possible, she concluded the only certain way to keep going was to supplement her vitality with Phosferine. The actual benefit Mrs. Taylor experienced within a few hours exceeded even the relief she knew would result from Phosferine, every nerve centre in her system began to resume its activity, thus promoting her recovery with daily increasing rapidity. Now that all traces of nervous disorders are expelled, and she sleeps sounder and eats better than ever, Mrs. Taylor urges other exhausted workers not to give up, but employ Phosferine to generate a new supply of nerve force and feel for themselves how capable, vivacious, and happynatured this new energy makes everyone,

Completely done with.

Mrs. K. E. Taylor, 369, Goldhawle Road, Chiswick, writes:- "The benefit I have received from Phosserine is almost incredible. I had been suffering for months from Neurasthenia, everything was a burden to me, head pains and body pains were constant, I could not eat, neither could I sleep. I felt utterly ill and wearied out, and after struggling on for some time, I was told by my doctor there was nothing for it but to give up my situation or to go away for a change. For many reasons, either would have been my last wish. I remembered Phosferine had done meso much good 14 years ago in a case of neuralgia and weakness following maternity, and so I started your remedy again. I consider it has again worked miracles for me. I can eat and sleep well, and am able to perform my duties, which comprise not only household affairs, but brain work, with ease and pleasure."-April 24, 1912.

Sore Throat?

Sore Throat is so common in this climate that never to suffer from it, even during theworst season of the year, would be an unique experience for most people. Yet this can easily be accomplished, as an eminent

physician has proved.

to use Formamint Tablets,"

be writes in the "Fractitioner" for December, 1907, "although I suffered periodically before." Everyone who uses Formamint may enjoy the same immunity, not merely from Sore Throat, but also from Tonsillitis, and those grave infectious diseases like Diphtheria. Consumption, Scarlet Fever, Measles, Mumps, etc., many of

which invariably begin with Sore Throat. All such diseases are contracted through inhaling germs, which breed rapidly in the mouth and throat. A Formamint Tablet, dissolved in the mouth, justantly destroys these germs.

WULFING'S formamint THE GERM-KILLING THROAT TABLET.

SEIFERT, M.D., writes: "Formamini Tablets have answered excellently in Sore: Throat, and are splendidly adapted as preventive of infectious disease.

SIGNOR CARUSO, the world-famous tenor, writes : "1 have found Wulfing's Formamint Tablets very beneficial to the throat and pleasant

to the taste."

writes: "Wulfing's Formamint is a remedy and preventive, the value of which is appreciated in this house.

THE BISHOP OF

BATH AND WELLS

Aithough Fermamine Tab lets are pleasantly flavoured and quite harmless, they contain a powerful antiseptic which goes thoroughly over the lining of the mouth and throat, and is absolutely fatal to germ life. Therefore, they notonly cure and prevent Sore Throat, but coffer safe protection against infectious dis-

These claims are thoroughly endorsed by the Medical Profession; there are thousands of testimonials written in the same strain as the three quoted above; and amongst the most prominent users of Formamint

are such relebrated people as Queon Alexandra's confidential Secretary, the Hon. Charlotte Knollys; the ex-Prime Minister of Great Britain, the Rt. Hon. Arthur J., Balfour, M.P.; Lord Kingsale & Lord Justice Buckley: Sir Gilbert Parker, M.P.: the Archdencon of Bristol, and the Downger Countess of Wicklow, etc. Harmful and worthless tab-

PESSIMISM REGARDING CHINA

The special correspondent of the Daily Telegraph at Peking, in the course of a recentudespatch to that journal, expresses gloomy forebodings as to the situation in China. He writes :--

Complete mystery envelops not only China's future, but also what is taking place to-day. A species of political paralysis is combined with unconcealed exasperation at the general unworkability of the Republican formula. Yuan Shih kai has less hold to-day on the general situation than two months ago. The basic reason for the present impasse is the fact that no system of provincial federation was adopted from the beginning of the produmation of the Republic. In China the province is the sole unit, and if the unity of the country on a workable basis had been made the first desideratum the history of the United States would have been faithfully copied. The Provinces, as self contained units, show in many cases much progress, and gradually create order by forcible, means. But difficulties are being met, and in Honan a struggle is proceeding between an infantry regiment surrounded by thousands of bandits armed with rifles .- The regiment has lost many officers, and is now being Russia will be certain."

THE CORONATION OF JAPAN'S EMPEROR.

The Nichi Nichi says that opinion is now gradually gaining ground among the officials of the Imperial Household Department that the Coronation of Emperor Yoshibito should take place at Kyoto in the autumn of 1913, and not in 1914 as previously sug. gested. The paper further learns that Count Watanabe, Minister of the Imperial Household, has been deliberating on this point with Marquis Saionji, but owing to the resignation of the latter negotiations must be re-opened with Prince Katsura, the new Premier.

A Shanghai dispatch to the "Asani states that it is rumoured that, Mr White, formenly the U.S. Vice-Consul at Shanghai and Mr Yu Kang, formerly Chinese Minister at Tokyo, have been appointed advisers to the Chinese Imperial House for the supervision of its finances.

On November 22, there was launched at Port Glasgow the steamer Penang Maru, of 9,400 tons gross, which has been built for the Japan Mail Steamship Company for their Eastern general carrying frade. The dimensions are : - Length, 405 ft.; beam, 52 ft. 3 in.; and depth, moulded, 30 ft She is built to Lloyd's highest class.

GLEN LINER IN COLLISION.

Sir Samuel Evans, President of the Admiralty Division of the High Court of Justice, sitting with two of the Elder Brethren of the Trinity House, gave judgment on 14th inst, in the collision case of the Glenroy, one of the Glen Line, against the Dutch steamship Rijnstroom to recover amount of damage sustained in collision off the Alexander Dock, River Humber, on Nov. 2 last.

MThe learned President, in giving judg ment, said the Glenroy was coming out of dock and the R instroom knew she would have to straighten to go down the river, and seeing her where she was the Rijnstroom intended to follow her down. This was proper and reasonable, but the Rijustroom did not take action for the Glenroy soon enough, she did not turn as quickly as expected. The Rijnstroom was going at full speed up to within four cables of the Glenroy, and she got too near before taking manicurres right in themselves but taken too late. Judgment for the plaintiffs

Among those present were the retiring President, Mrs. Pollock, Mrs. Edkin, scentary, Mrs. Stabb, treasurer, The Bishop of Victoria, and the Rev. H. Copley Moyle.

THE VELR'S WORK. The twenty-third annual report of the committee, read by the Chairman, stated that the number of cases entered in the society to Dr. Sanders, Miss Inness and books since the formation of the society | the nursing staff of the Matilda Hospital' in 1869 had now reached 1,287. A SPECIAL APPEALS The Chairman also read the following special appeal signed by the President The committee feel that the time has come for bringing to the notice of those interested in the work of the society, and the welfare of the Colony, a need which has been increasingly felt for some time just, namely, the need of a women's Willis, R.G.O., and the decision had hostel under the management of a recognized society where women and girls may find temporary accommodation at moderate rates and may at the same

Definite instances can be given showing that there ought to be in this Colony, as there is in other centres in China Japan and India, accommodation to meet the requirements of women arriving in the Colony, seeking employment, passing through, or temporarily out of work. Constant inquiries by letters prove that if such a hostel were provided, it would be supported not only locally, but also accompany the battalion, which has a total by missionaries passing through Hong- strength of about 650 men. kong, and by an increasing number of ladies travelling alone who stay here a few days on route for other places. The committee desire to appeal to the public to help them in the effort which they are now making to collect funds for such a bostel and would suggest-that it should

be put under the management of the Young Women's Christian Association which does excellent work in the Gillony. THE CHAIRMAN'S SPEECH. In moving the adoption of the report and accounts the Chairman said it would remembered that at the ond of 1911 the society had a balance in hand of \$534. \$576, new life members' fees \$250, dons-

tions to \$1,308 and interest on investments to \$738. The total income of the society was \$8,480; \$3,178 was spout during the year on the relief of distress and \$52 on incidental expenses, which left a balance to carry to 1913 account of \$249. The receipts for the year were considerably larger than they were in any of the four preceding years, but so also. was the expenditure. There are two unantisfactory features of the revenue account. One was the small number subscribers. Together with the five new life members they represented just one per cent, of the British-European and American resident civil population. Tho other unsatisfactory feature was the high before being charged. percentage which donntions boro to the income of the society. a month. It should be possible for the

moderty to treat as capital for investment. he toes received from life members but if they were to act on this principle now they would have no money in hand for immediate needs. The society will called upon to face in this Cojony all the ordinary difficulties attending the relief of distress but there were two difficulties of a special character which he would like to lay atress upon. One was the extreme narrowness of the local market for European and American labour and the other the difficulty distance. The section of the community to which they appealed must realise the poculiar costliness of the only solution of the former difficulty. After speaking of the patient care exercised inthe distribution of the society's funds and in its management, the Chairman

HURRYING ON THE SCHEME

Mr Herbert Samuel, the Postmaster General, giving evidence before the Marconi Inquiry, said he had consulted the War Office and the Colonial High Commissioners and others upon the interim report to the Government and he was glad that the Committee had sanctioned the granting of immediate, sites for wireless stations as suggested. He would be very Celtic arrived at Queenstown and happy indeed to carry out the suggestion, which was of the utmost importance, and was ready to send a Commission, in co-operation with the Admiralty to select a site for the station in Egypt, within two months. From Egypt the Commissioners would go to Es t strice. It was also necessary to make inquiries concerning the installations that the scheme should not be held up until these more distant sites were selected. He emphasised the advisability of experts testing the systems within a fixed date to obvinte delay.

ECZEMA A TORTURE

Sleep or Rest Out of the Question. It Was Unbearable. Rash Formed into Blisters. Cuticura Soap and Ointment Thoroughly Cured Him. Also Cured Daughter of Eczema.

"I suffered with eczema for weeks and months. Those who have never suffered

with it cannot imagine the feeling, also the dread of the night coming on, as sleep of rest of any kind was out of the question, the torture being both agenting and unbearabla. It would make its appearance in a rash, spreading itself into bright patches, often forming into blisters, at times with most terrible heat as night came on. "I found it useless to retire to rest, as that, was the worst part to encounter, it always then being at its full height. I tried in vain all surts of so-called remedies which gave no relief, until advised by my daughter to try the Cuticura Scap and Ointment, and following the directions carefully, I must admit the result was most marvelous. completely cured me and thanks to the Cuticurs Sosp and Ointment, I am as before the old complaint, without spot or blemish. offer them my heartfelt gratifude for such a speedy recovery. I cannot speak too highly of their merits, and I can vouch for myself and others to whom it has done so much good for my daughter was also cured of ecseme by the Cuticura Soap and Cintment. THE RAINFALL OF HONG-KONG DURI G 1912.

(Contributed.) The year started with three wet months. arrany, February and March each had consulerably more than the average, rainfall : this was not however kept up, and the summer proved a dry one. June and and August were about the average, while May, July and September were well below its October was practicably minless and November only produced '28 of an inch. December was the wettest on record, 4.90 inches being registered at the Harston at No. 1, Des Vorux Road Observatory against a previous maximum Central, Victoria aforesaid, on any of 4.29 inches. The net result was a years rainfall of 63.93 inches, equal to 77 per cent, of the average for the last 29 years. During this period a lower years raisfall has only been experienced on three occasions, in 1895 we had 45.83 inches, in 1898 - 57.02 inches and in 1901 55.78

HONGKONG CHALLENGE SHIELD.

ANDUAL MERTING. The annual meeting of the Hongkong Challenge Shield competition was held last evening at the Y.M.C.A. rooms, Mr R. C. Barlow presiding.

Mr A. Hamilton, the hon, secretary, who was re-elected to that office, reported that entries had been received from H.M.S. Tamar, H.M.S. Minotaur, Staff and Departments, Hongkong Football Club R.G.A., and R.E., and that the D.C.L. was expected to enter two teams representing the left and right half battalions.

It was reported that there was a deficit , on last season's working of about \$113, this being chiefly due to the large expendi- | Direction of ture on medals, and in order to place the competition on a more satisfactory financial Weather bases it was decided to raise the entrance Rain fee from \$5 to \$10. The Secretary stated that at the present time the Hongkong Club made good the loss and he thought they would probably give half the stand recoipts at the final and semi-final this season.

The draw resulted as follows: First round-Hongkong v. Stoff and Departments: the rest, byes. Second round-Right half Co. D.C.L.I. v. H.M.S. Tamar; R.K. v. H.M.S. Minotaur : Left Half Co. D.C.L.I. v. Police : R.G.A. v. winners of first round, which was ordered to be played on the 25th inst. The second round is to be played on or before the find of February. It was decided to allow the Tamar to select their team from any ships-

in the Harbour, except first and second class battleships and the Rosario. The appointment of referees was left with the secretary and it was decided to ask them to officiate gratuitously in view of the financial position of the competition.
